

Environmental Policy

The Birchmeadow Centre is a large community, events, and meetings facility that is owned by Broseley Town. It hosts a wide range of groups and activities and is available for both private and commercial hire.

The Birchmeadow Centre is keen to manage its resources carefully, both to control costs and to prevent pollution.

The Birchmeadow Centre is committed to continual improvement. This policy outlines how it is trying to reduce its impact on the environment both locally and globally.

The Birchmeadow Centre will:

- Have an environmental action plan and check progress at management committee meetings.
- Take measures to reduce consumption of electricity and gas.
- Avoid noise nuisance to neighbours.
- Recycle waste where possible.
- Support the local economy by purchasing products from companies in the local area wherever possible.
- Meet all environmental legislation, and the expectations of our users and funders.
- Work with user groups to consider how events and activities at the centre can raise environmental awareness.
- When the building is extended, make sure it uses low impact materials and has a low impact in use.
- Tell staff, centre users, and funders about this environmental policy and make it [available](#) on the Birchmeadow Centre website
